

Says

What have we heard them say?
What can we imagine them saying?

Thinks

What are their wants, needs, hopes, and dreams?
What other thoughts might influence their behavior?

Supportive : Some people admire political juggernauts for their strong leadership and ability to achieve political goals

Effective Leadership : people often look to political juggernaut to provide strong and effective leadership

Critical : Others may view political juggernauts negatively, perceiving them as power hungry individuals who prioritize their own agendas over the needs and interests of the general population

Fearful : There may be individuals who feel threatened by political juggernauts due to concerns about their potential to undermine democratic process, concentrate power and stifle political opposition

Policy goals and change : many people hope that political juggernauts will champion and changes they desire

Addressing public concerns: individuals may want political juggernauts to be responsive public concerns and prioritize the needs of their constituents

Networking and Coalition Building: political juggernauts often excel at building relationships and networks, both within their own party and across different segments of society

Policy Concerns: People may fear the implementation of policies that they believe will have negative effects on their lives or communities

Strategic and Tactical Maneuvering: Successful political juggernauts are adept at strategic maneuvering to achieve their goals.

Charisma and persuasiveness : political juggernauts often possess charisma and the ability to captivate and persuade the masses

Partisanship: The intense partisan divide in politics can create fear of the other side gaining too much power leading to frustration with the perceived intransigence of political opponent

Misinformation : The spread of misinformation and disinformation in politics can cause anxiety and fear, as people struggle to discern fact from fiction
